

Sign Careers Interview Prompt Card

We would like to offer you some pointers on making your Youtube Video the best possible to showcase you to potential employers. Therefore, we have created a few guiding questions, these are aimed to help you with your presentation.

We suggest the following questions be a part of your video, the way you present them is up to you, one key element is – RELAX and be as natural as you can be.

Why video? Employers like most people nowadays are always busy, by using video in a media like You Tube they have the opportunity to grab some time when available and importantly its available to them 24/7. Additionally the Sign Careers web site is an open channel and provides the opportunity to promote your job seeking across a wider field. Good luck in your apprenticeship search.
